

TRIPLE TANK FISH PUMP BDP3 SERIES

Mobile unit.

Patent pending technology prevents fish entrapment and scaling on the pump's gates.

4.0 Industry
Remote control
Cloud Access

Fresh water smart supply option.

MERITENS's BDP3 Serie is design to transfer live fish maximizing welfare (lowering stress y fish damage), giving a continous flow for both inlet and outlet by killing dead times at the begining of a new suction cycle.

- HMI touchscreen display and remote control by tablet.

Smart sensors with failure auto detection and easy replacement.

Water hammer Reduction.
