

GRAVITY POST MORTEM FISH BPM2 SERIES

4.0 Industry
Remote control
Cloud Access

Gravitational load using patent pending technology to prevent fish entrapment and scaling on the pump's gates.

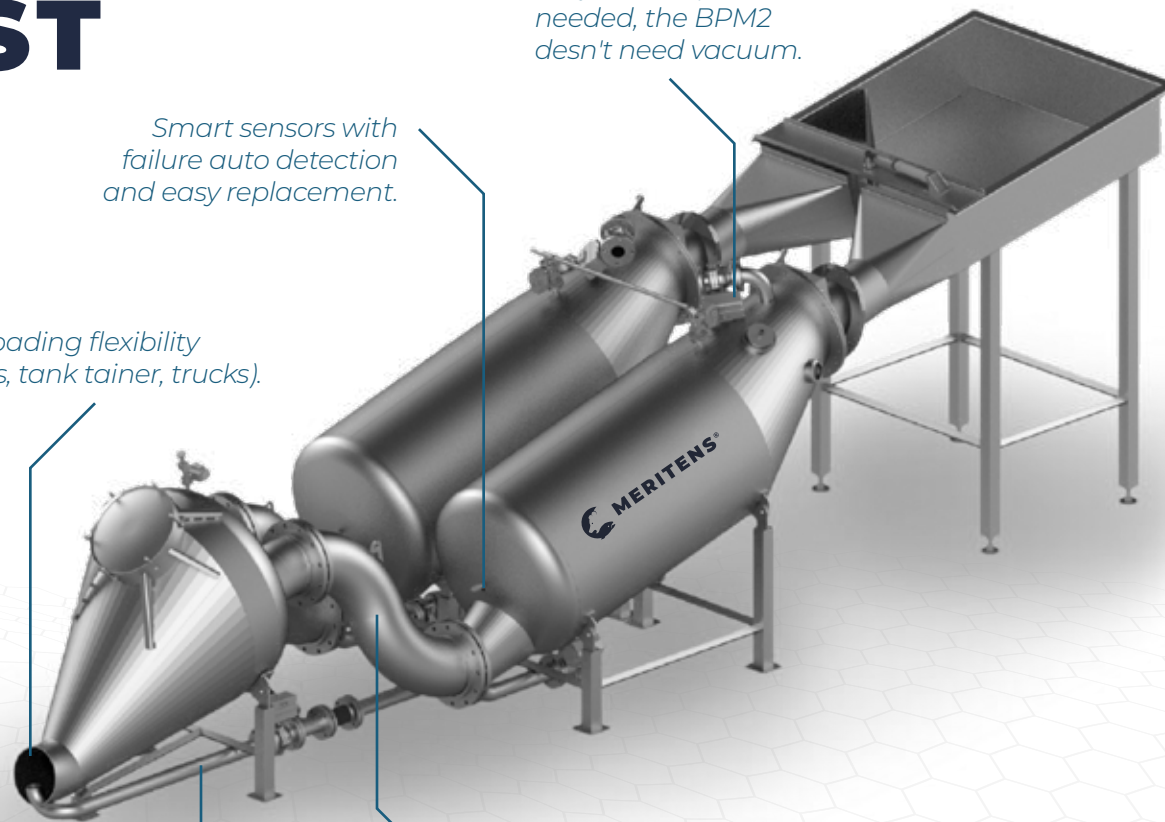

- OPC cleaning system
- HMI touchscreen display and remote control by tablet.

Includes programmed modes for efficient use of Flow Ice, Refrigerated Sea Water (RSW) or regular sea water.

Smart sensors with failure auto detection and easy replacement.

Unloading flexibility (bins, tank tainer, trucks).

Only air compressor needed, the BPM2 doesn't need vacuum.

Bloodwater control and disposal mode.

Diaphragm pump for Flow Ice or sea water
